

Robin

Excellence In Tools

CATALOGUE

AN ISO 9001 : 2000 Quality Enclosed Company

“Robin” Tools Broke Ground in 1989 as a small family run company involved in the designing & Manufacturing of Tools.

Ever since the commercial operations began, “Robin” vision was to study & identify the consumer needs by offering well designed & engineered products as a solution.

The key of success was without doubt -THE CUSTOMERS SATISFACTION- with this drive, the company, in short span of time emerged as one of the country’s leading manufacturers of DIY hand tools.

The company since it’s inception has maintained its own standards of quality without any compromises. Over the years, this path, dotted with total commitment & exacting standards has provided the company a rock like foundation. Today with decades of experiences in, It’s belt, “Robin” has firmly established a position of pre-eminence in the realm of tools. The Company aims at building on its traditional strength and fulfilling its vision of becoming a world class company, dedicated to professionalism & pre-eminent. With the solution of every need, an extensive range of products with a nation & world wide distribution network, the consumers can rely on “Robin” for, what they deserve.
